

NSD Training Services
France - Dubai – Oman – Saudi Arabia

Why training?

Knowledge is power

Our NSD training services helps you to maximize and accelerate the return on your investment (ROI) in NSD solutions – across the board. Effective training ensures your IT professionals, your end users, and your decision makers have the knowledge they need to drive your enterprise forward. It helps you to implement the right solutions in the right way, to identify weaknesses and strengths in your IT environment, and to optimize your systems to meet new challenges and incorporate new technologies. And when it comes to tackling challenging projects, NSD training will ensure that you succeed where others may fail.

Why training?

Deep understanding of your industry

NSD training is a unique range of services designed to put your company firmly – and fully – in control of your NSD solutions. Because when it comes to getting the best out of NSD, we are the experts. Put simply, the quality, consistency, and breadth of NSD 's training services is unparalleled. NSD training offers high-quality training services in multiple languages the world over. NSD is a complete, one-stop answer to your needs; NSD provides the infrastructure, content, and the training itself, as well as certification for consultants and the training itself, as well as certification for consultants and users.

Why training?

Knowledge transfer for your entire organization

Our NSD 's end-to-end approach involves every level of your organization – from senior executives and IT professionals to end users. NSD training provides training tailored to your individual requirements, including classroom and consultant training, on-site training, or fully customized programs. And it focuses on the needs of each group, helping decision makers identify what strategic measures to take, teaching IT experts how to implement new software and create documentation, and providing introductory courses for new users. This ensures not only that every employee is equipped to evaluate and work with NSD software, it actively encourages open communication and knowledge sharing among all parties. You benefit from closer links with NSD itself and from a better understanding of your IT environment throughout your organization. That results in better cooperation, improved responsiveness, and increased productivity.

Who need training?

NSD training is not limited to the consultants but it concerns :

- IT professionals and project teams
- Consultants
- Power users
- End users
- Senior executives and managers

When do we need training?

NSD training is not just about training during and immediately after implementation – it goes far beyond that..training is most effective when it is not a one-time event, but a continuous lifelong process of learning.NSD solutions have a clearly defined life cycle composed of three phases:

- discovery and evaluation
- Implementation
- continuous business improvement.

NSD training mirrors these phases, providing services that accompany you every step of the way – choosing and implementing the right solutions, keeping you up to date with the latest technologies, and ensuring your company derives maximum benefit from NSD software, today and tomorrow.
